

The Future of Urban Mobility.

An International PhD Colloquium (McGill x TUM x UPM).

Dr.-Ing. Benjamin Büttner, Dr.-Ing. David Duran

1 ECTS

WS 2023-2024

Friday, 16:30 – 18:00 ECT

ONLINE

The International PhD Colloquium on Urban Mobility is an interdisciplinary forum that brings together doctoral candidates in an international context to present and discuss their research related to urban mobility. In this colloquium doctoral candidates will present their research, engage in fruitful discussions, and network with peers and experts in the field. Organized collaboratively by the Universidad Politécnica de Madrid - Spain (UPM), the Technische Universität München - Germany (TUM), and McGill University –Canada, this colloquium aims to foster an international approach to understanding and addressing the complex challenges of urban mobility.

Friday, 26.01.2024	Kick-off (David Duran)
