

Transportation Policies and Project Design

Prof. Dr.-Ing. Gebhard Wulfhorst, Dr.-Ing. David Duran, M.Sc. Matthias Grundei

2nd Semester M.Sc. of Transportation Systems and Environmental Engineering
2 SWS, 3 ECTS / part of the respective modules

SS 2024

Monday, 13:15 – 14:45

Room 0602

Within the TPPD course, students will learn about the formal and informal decision-making processes, which are in place to facilitate the implementation of transportation projects at different scales.

A critical approach to study cases in Germany and Europe will provide examples of the processes and tools available in the local context, enabling students to understand the mechanisms in other countries. Every session of this course contains a lecture and an exercise section.
