

Analyzing the effects of new forms of work on travel demand

JOINT WORKSHOP OF WCTR SIG F1 & AUM

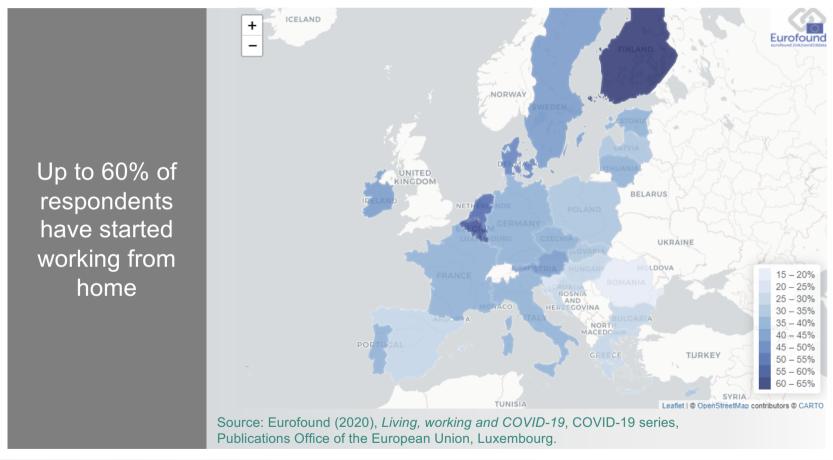

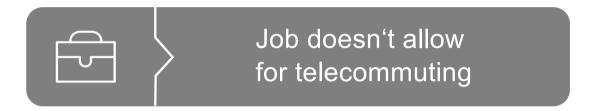

Analyzing telecommuting potential

Employees don't want to telecommute

Employers don't want employees to telecommute

Survey approach

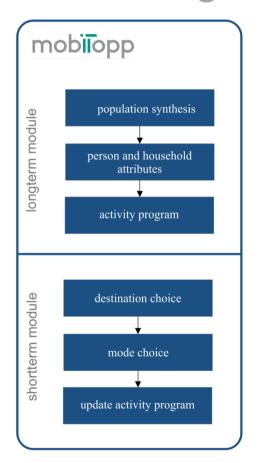

- Trip diary
 - With time use component
- Survey period: 1 week
- Smartphone/GPS-based
- Supplemental online-survey
 - SP-Survey to analyze effects of (hypothetical) new forms of work

Model integration

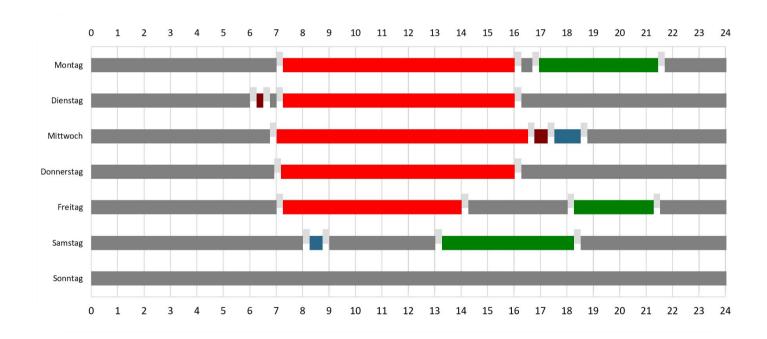

Model integration

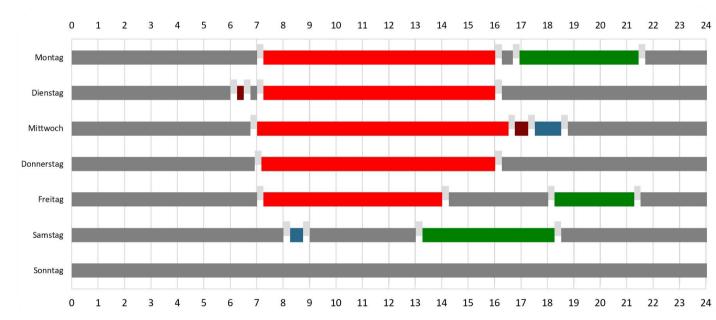

→ Accounting for additional activities at home

Model integration

→ Analysis of additional remote work scenarios, e.g. co-working spaces
