

München, 28.03.2013

PhD Fellowship announcement

Through the support of the HBS foundation, the **mobil.LAB Doctoral Research Group on “Sustainable Mobility in the Metropolitan Region of Munich”** has been set up at TUM Institute of Transportation.

To foster our activities we are seeking to fill

3 Doctoral fellowships

(Fellowships for up to three years by HBS, social-political engagement requested)

focusing on selected topics such as:

- *Spatial strategies for housing, workplaces and transport networks in a growing metropolitan region;*
- *Impacts of mobile communication technologies on young adults' preferences and mobility behavior;*
- *Topics of your own choice with a strong relation to sustainable mobility in the metropolitan region of Munich.*

We offer an interdisciplinary and international context, embedded into an open-minded research environment and a strong local and institutional framework. Doctoral candidates should also enroll TUM Graduate School.

Further information can be found at www.sv.bv.tum.de, www.boeckler.de or by personal contact.

Interested candidates are invited to send a letter of motivation, CV, credentials, a two to five page research strategy as well as a one page description of the social-political engagement in German or English **at latest by 30th of April 2013** to gebhard.wulfhorst@tum.de.

Full proposals including a ten page exposé have to be submitted until the end of May to HBS foundation. The funding decision will be taken in September, so that fellowships can start from October 2013.
